

At Toad Song Farm it is our mission to foster sustainable living through education; and by offering quality plants, farm products, and healing services to the community. All of our herb plants are sustainably grown - without pesticides or growth regulators, and with organic and non-GMO seeds. We offer workshops all about herbs and country living skills throughout the year on our farm, including our ever popular Wise Women Retreat, Stone Soup, All About Lavender Labyrinth Walk and Picnic, and much more. Mary is also a licensed massage and bodywork therapist, aromatherapist, and herbalist. All that combined makes Toad Song Farm good for everyone in body, mind, and spirit.
